

DEPARTMENT OF THE ARMY
OFFICE OF THE ASSISTANT CHIEF OF STAFF FOR INSTALLATION MANAGEMENT
600 ARMY PENTAGON
WASHINGTON, DC 20310-0600

DAIM-OD

17 May 2019

MEMORANDUM FOR

Director, Industrial Base and Infrastructure, U.S. Army Materiel Command
Director, Facilities and Logistics, U.S. Army Installation Management Command
Chief of Staff, U.S. Army National Guard
Deputy Director, Office of the Chief, Army Reserve

SUBJECT: Army Energy Manager Training Transition

1. References:

- a. Federal Building Personnel Training Act of 2012, 14 June 2012
- b. Energy Policy Act of 1992, 24 October 1992
- c. Energy Policy Act of 2005, 8 August 2005
- d. Energy Independence and Security Act of 2007 (EISA 432), 19 Dec 2007

2. OACSIM will no longer conduct on site Basic or Advanced Energy Manager Training courses. Training to support energy manager competencies required by references 1.a-d is available from a wide variety of sources. Army-specific training will be offered during the Army Energy Manager Training Workshop in conjunction with technical training offered as part of the Annual Department of Energy hosted Energy Exchange. Additionally, OACSIM, along with ASA(IE&E), will periodically conduct webinars to address Army-specific energy and water topics.

3. Enclosed is a list of energy manager competencies and technical training sources. To view these sources, or to make recommendations for updating or adding items to the list, please contact the POC below or submit online at:
<https://www.milsuite.mil/book/groups/army-energy-and-water-managers>.

4. Point of Contact is Paul Richardson, (571) 256-9761,

Energy Manager Training Resources

1. The Energy Policy Act of 1992 defines trained energy managers as those who have demonstrated proficiency or completed a course of study, in the areas of building energy systems, building energy codes and applicable professional standards, energy accounting and analysis, life-cycle cost methodology, fuel supply and pricing, and instrumentation for energy surveys and audits.

2. New energy managers who have not yet demonstrated proficiency or been trained should receive training within one year of assignment. Resources listed below provide opportunities to acquire and sustain the knowledge, skills and abilities required to perform energy manager duties.
